1. Read President's Memo
Dated 8th instant, remarking
on the decrease in the Octro
collections for the year 1881/82,
and observing that the dismissal
of the present Staff of Octroi
Establishment in a body, and
appointment of fresh hands,
would perhaps produce a
desirable effect

After arguing for some
time, the Members present
unanimously concurred in the

with the Vice President,
in considering that the
present staff had not given
satisfaction in the discharge
of their duty, and that - ,
therefore they should be
dismissed in a body, and
new men entertained in
their stead.

Resolved accordingly
that the present 5 Karkons
be dismissed, and more
trustworthy and efficient
men entertained in their
stead.

2. Proposed by the Vice-
President and agreed to
by the Members and resolved
that the present Kolhar
Muralimud who had also
not worked faithfully, should
be transferred to Lahug, and

What reason is there to

3. The Vice-President
remarked that he did not
at all consider that the
Detroit Customs Bundiah
had discharged his duties
honestly. He stated that he
had reason to believe that
he was hand and glove with
the Merchants and knowingly
shut his eyes to Smuggling.
He drew the notice of the
Board to the fact that
Bundiah was an old
resident of the place and
rather an influential man
amongst the people and who
if he had worked in the
interests of the Government,
could have exposed several
malpractices and Smuggling
on the part of the people. He

to evade their duties, had,
never cared to do so, and,
certainly had not reported
a single case to the knowledge
of the Vice President during
the last 2 or 3 years. —

Apart from all this, he
was sickly, and being pretty
well-to-do, indifferent as
to his health

The Vice-President called
up the Board to give their
opinion as to what should
be done with him. & all

agreed with the Vice President
in his remarks, except Mr. Chann
Jen Kharidee Gouindappa,

and proposed that the President
may be requested to transfer
him from this place to some
other Kattay

It would be more satisfactory
if there was something
specific against him
than this, on which I
scarcely feel justified in
dumping him

I have warned him that
his actions and work are
being closely examined and
the Vice President should at
the end of three months report
as to how he works.

This meeting was specially
convened for the better
arrangement of Petrie Collections
by guarding against smuggling
as far as possible.

The Vice-President stated
to the Board that although
in the previous meeting &
measures were taken to get
a better staff of Petrie officials,
there was yet the necessity to
mend certain matters connected
with the collection of the duty
&c

The Vice-President explained to the Board the two or three cases of smuggling which were brought to his notice during the week in which he had no doubt the merchants had tried to smuggle, but the reasons which they gave were such that under the present system it made it very difficult for him to award any punishment.

If any merchant was by chance caught in the town with dutiable articles without a pass from any of the Karkoons before he had time to reach his house, and smuggle the goods, the ready excuse was "the Karkoon was not in the Kattay", and if any such articles were

were reported to have been
Smuggled in any house or
Shop, the alert Inhabitant getting
the news, at once brought to
the Head Kattay such portion
of the Smuggled goods which
he was unable to dispose of
Secretly, and was ready to
pay the duty, making it
appear that he came into
the Town on the previous
night when the Karkoon
was not at the Kattay, had
passed the night in his house
and had honestly brought
the articles to the Head Kattay
in the morning to settle the duty.

Instances like these render
it very necessary to make one
Servant to be always present
in the Kattay both night and

in the income, and that
the proposal should be at
once submitted for the sanction
of the Dewan, the Kolhars
being in the meantime employed
in anticipation of sanction
from the 1st June as the
matter was very important
and urgent

The Vice President and
the members present there
had some discussion and
resolved that the following
procedure should be strictly
adhered to by the officers/servants
in the collection of the duty

This system will have to be
watched with the greatest care
The right of men especially may
be abused if the officials are
not closely looked after
Hence, each bullock should not be allowed to
pass any barrier without being
searched

The Vice President and
members of the Board should
keep a careful watch and
report at once any case of
violation and be severe
with the defaulters, to ensure

all dutiable articles, he
should issue tickets mentioning
the date, quantity, tax payable
4⁰⁰, State how much the
Merchant is desirous of
selling in the Town, and how
much to take out, and send
off the merchandise at once

with the Merchant in charge
of the Kolkar, to the Head Kattay

Here, the Muzangar will
levy the duty on articles which
are to be sold in the Town;
the rest to be exported will
be kept in the Kattay, unless
the Merchant takes it out of
the Town immediately, till
they are asked for, when they
will be sent out of the town
in charge of a Kolkar or Town
Police person with a free ticket
If articles remain longer
than

of wilful annoyance that
may cause to their notice
and the feeling of the
townspeople as regards
these regulations

It must be remembered
that we must avoid all
unnecessary hassling rules
and collect the duties in the
simplest and most above
board of a shew.

be levied upon them

Proper Registers with
Counterfoils will be kept
in all the Kattays, and the

monthly meeting of the Board

The Vice-President and
the members present then
considered over the necessity
of removing the present Head

Market stalls, which would
be more convenient for the
purpose. It was observed

that the present Kattay being

the President should be consulted by the Vice-President on this point.

The Vice President having remarked that he placed no confidence in the pattaes shown by the merchants to fix the duty on their piece goods, and requesting the members to give their opinion as to what should be done to get more trustworthy pattaes, Mr Ganesh Rao proposed that the merchants should be made to keep a signed and sealed Register of all goods received and sold with their Value open for examination at any time under the orders of the President or Vice-President, and that to help the examination in

State that the regulations for collections are
working fairly now. It is too early to report the
advantages of the present system. That no complaints
have been received; but that under the present
system I hope to see the Actoi collections increase
at the end of the year when the particular incidences
of last year are set apart. As it is, 4 cases of
smuggling were detected. (Initials) Cal. -

The Ochoi Servant explained that the large Collection in April and May last year was owing to the many marriages which were celebrated in the Town and in the village of Vellos last year. The number appeared to be 1200. He then explained to the Vice-President that last year in particular there were some grand marriages in the Town which in the same month of the year were very few.

The Counterfoil registers and birth records kept by the hospitals and the midwives were examined.

The Vice-President observed that the registers were to be in accordance with the health regulations introduced in the
